

Subject Line: **FREE WINTER YARD CARE**

Greenleaf Lawncare, Inc.

Dear _____:

We're all spending a lot more time at home and in our gardens due to the pandemic. Greenleaf Lawncare will prep your landscape before the heavy weather hits, so you will see it bloom beautifully again when spring arrives! We're offering our "put your garden to bed" service free of charge to thank you for your membership in our lawn and garden program.

Free Service includes:

- **Aeration and fertilization of lawn**
- **Repair/mulching of bald spots**
- **Flowerbed maintenance ~ bulb removal, dividing overgrown plants, weeding**
- **Lawn maintenance and trimming of shrubs and trees**
- **Removing dead foliage**
- **Inspection of drainage, filters, and sprinkler systems**
- **Personalized care based on client input at time of visit (supervisor on-site)**

**Protect your investment and enjoy your safe haven!
Call 800-lux-lawn (800-599-5296) or [schedule your visit online](#)**

We're a family owned business, and deeply appreciate your support. We started 35 years ago with nothing but a few lawnmowers, a love of the outdoors, and fierce determination. Our success is based on your satisfaction. We guarantee our service. If there's ever anything we can answer for you, there will always be a real person to take your call.

NEW THIS YEAR: Specials like this one and service discounts will be offered exclusively to members throughout the year to address just about anything "green" you may need.

While the mainstay of our business is superior lawn care, we also provide services you may be unaware of, such as maintaining fish ponds, pruning and trimming shrubs and trees, and attending to sick plants.

Seattle is known for our evergreen trees, lush foliage and abundance of water. Unfortunately, along with these perks, we also get more than our fair share of weeds, moss and pests! We'll manage these for you as well, using toxin-free products and organic fertilizers.

We look forward to hearing from you.

Sincerely,

Robert Leighton, Owner
