It's important to remember in the climate of COVID-19, that HIV/AIDS had a very similar trajectory. If we have learned anything from adversity, it's that compassion goes a long way, and there is *always* more hope when you are supported and have access to resources.

Since 1996, Christie's Place has provided education and resources to empower thousands of women and their families living with HIV/AIDS to advocate for their own health.

Please join us for a night of storytelling to learn about our history directly from our founders. You will be inspired by our members' resilience as they share their unique experiences. You can expect to hear from generous supporters who make our work possible and most importantly, you will **Be a Part of History!**
