"Over 11 years ago I accepted a position as Case Manager. Imagine my surprise coming from working over eight years at a busy medical center, right away I felt the warmth radiating through the walls.

The welcoming hugs & kisses from staff and clients were definitely a culture shock for me. I quickly adapted to all the affection casual come as you are atmosphere. The trust and leadership provided to me by Liz Bronson-Johnson & Joanne Ferrer will forever be cherished.

Many times I felt and witnessed the fear, desperation, and burden that our clients were experiencing. I can also attest to the bravery and remarkable resiliency that clients gained by participating in our programming.

So many clients have enhanced their lives and I've been taught so many lessons on humility and service. Throughout the years the countless accomplishment would have not been possible without the amazing staff at Christie's Place.

I strongly believe in the mission that was created 25 years ago to empower women, children, families, and individuals whose lives have been impacted by HIV/AIDS to take charge of their health and wellness".
